Data taken from 2010 and 2000 USCensus, the City of Madison Voting District Map. !Hispanic is a designation that is in addition to race. As such it is not included in the Total Population Figure.
 * The district level data came from the Voting District Map. This combined all non-black races into one category. It is included here under white for reference.
 ^ The 2000 Census has a slightly lower number for blacks than the Voting District Map. It is likely those who indicated more than one race and checked black were included in black for the Voting District.
